

# EURO TILT-TURN WINDOW

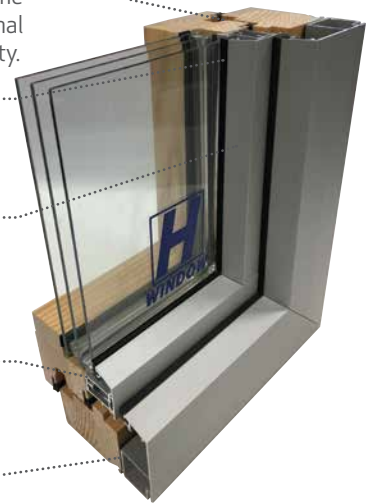

SIMPLY BEAUTIFUL  
SIMPLY REVOLUTIONARY  
SIMPLY **H WINDOW**

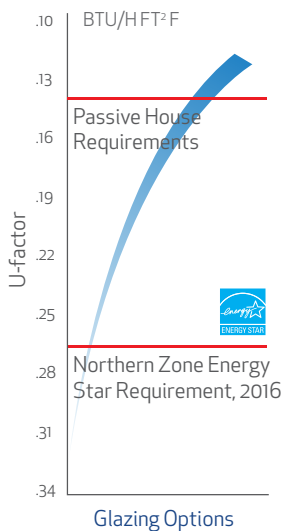

H Window inswing tilt-turns are designed to provide natural beauty and superior performance. The unique tilt-turn hinge and aluminum/wood composite construction enable the H Window to outperform the competition in total performance tests. H Windows can be used in any size residential or commercial projects where these attributes are desired.

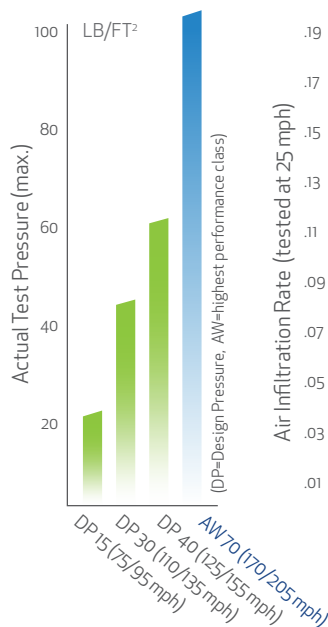

- Vast array of cutting-edge 2 and 3 pane glass technology.
- Natural and warm wood interior in Pine, Red Oak, or a variety of other species, including exotic woods.
- Factory applied interior finishes available in a variety of stain and paint colors.
- Euro lever handles available in various styles and finishes. Concealed hinges are standard; exposed hinges required for certain sizes.
- Composite aluminum/wood frame and sash for superior thermal performance, stability, and durability.
- Dry glaze system creates less stress on glass seals and allows for ease of glass replacement.
- Exterior finishes of super durable powder coat, anodizing, and Kynar®. Wood grain finishes also available.
- Glazing system is vented and weeped to ensure dissipation of any moisture.
- Thermal tape for thermal/moisture barrier
